Eshop Guide x Shopify

Mid-market execution engine for complex Shopify projects in DACH.

SEGMENT FOCUS

Mid-market (DACH)

REGION

Germany, Austria,
Switzerland

SHOPIFY PARTNER SINCE

2016

TEAM

45+ Shopify specialists

Strengths

What makes your team a trusted Shopify execution partner.

- Shopify-first delivery model with standard-first architecture
- Strong technical execution for complex IT and ERP environments
- Fast pre-sales support in stakeholder and architecture calls
- Enablement and growth services after go-live

Capabilities

The implementation workstreams you deliver repeatedly.

- Migrations from Shopware, Salesforce Commerce, Magento, and custom stacks
- B2B and D2C commerce implementations with custom logic where needed
- ERP-critical integration projects across multi-store organizations
- Post-launch optimization in UX, A/B testing, retention, and conversion

Ideal Customer Profile

Who should engage you first and why.

Merchant stage	Scaling and mid-market merchants planning a strategic platform move.
Complexity	Multiple systems, integrations, and cross-functional stakeholder groups.
Business model	B2B, B2C, or hybrid operations with high reliability requirements.
Decision criteria	Predictable delivery, clear budget guardrails, and business-value custom work.

Success Stories

Use concise proof points with business outcomes.
